Monthly Digest of Statistics

The Government Statistical Service

A service of statistical information and advice is provided to the Government by specialist staffs employed in the statistics divisions of individual Departments. Statistics are made generally available through their publications and further information and advice on them can be obtained from the Departments concerned.

The source for further information about series published in this volume is shown at the foot of each table. Current telephone numbers of these sources as well as general information about the *Monthly Digest of Statistics* can be obtained from the Central Statistical Office, Great George Street, London SW1P 3AQ. Telephone 01-233 7318.

Enquiries about orders and subscriptions for the *Monthly Digest of Statistics* and other Central Statistical Office publications should be made either to: Open University Educational Enterprises Ltd., 12 Cofferidge Close, Stony Stratford, Milton Keynes, MK11 1 BY. Telephone Milton Keynes 0908-566 744.

or to

Her Majesty's Stationery Office, PO Box 569, London SE1 9NH. (Telephone 01-928 6977, extension 295 or 312 for subscriptions and standing orders; 01-928 1321 for orders).

Monthly Digest of Statistics

No 442 October 1982

Introduction

This *Digest* has been prepared by the Central Statistical Office in collaboration with the Statistics Divisions of Government Departments.

The name of the department or organisation providing the statistics is shown under each table. Some of the statistics provided by departments are actually collected by other organisations such as nationalised boards and trade associations. The assistance provided by these organisations, too numerous to mention individually, is gratefully acknowledged.

The figures in the *Digest* are mainly totals for calendar months or monthly averages.

Some of the figures included in this *Digest* are provisional and may be revised in later issues.

Definitions

A Supplement of Definitions and Explanatory Notes, published with the January issue, gives detailed definitions of all the terms and units used in the Digest. The following general definitions should be noted in using the Digest:

Area covered. Except where otherwise stated, all statistics relate to the United Kingdom of Great Britain and Northern Ireland.

Consumption and stocks. The terms 'consumption', 'disposals' and 'stocks' are defined in detail in the Supplement to the Digest. Figures of consumption and stocks are seasonal and should be used with caution. The stocks figures given may often relate to only part of the total stocks in the country.

External trade. Owing to differences in coverage and timing, figures of imports and exports are not always comparable with those for production, consumption and stocks.

Symbols and conventions used

Symbols. The following symbols are used throughout:

- .. not available
- nil or less than half the final digit shown
- * average (or total) of five weeks

Change of basis. A line drawn across a column between two consecutive figures indicates that the figures above and below the line have been compiled on different bases and are not strictly comparable. In each case a footnote explains the difference.

Rounding of figures. In tables where figures have been rounded to the nearest final digit, there may be a slight discrepancy between the sum of the constituent items and the total as shown.

Recent data

Owing to an industrial dispute certain data for 1981 are not yet available.

Section 15. Many of the tables in this section do not show any figures for months between March and September (exports) or June and September (imports). The backlog of figures will be published in future issues as they become available.

In October HM Customs and Excise introduced a revised documentation scheme for recording the movement of exports. As a result the October 1981 – April 1982 trade figures have been adjusted and will therefore differ from those published in the overseas Trade statistics.

Contents

1	National income and expenditure	Page
1.1		4
1.2	Expenditure on the gross domestic product	6
1.3	Factor incomes in the gross national product Index numbers of output at constant factor cost	7

^{1.} Equals total final expenditure on goods and services at market prices less imports of goods and services.

^{2.} Equals gross domestic product at market prices less taxes on expenditure phis subsidies.
3. These figures are revised and brought up to date in the January, April, July and October issues. In the March, June, September and December issues Tables 1.5, 1.6 and 1.7 may show more up to date figures for individual series than those shown here.

4. Estimates of the gross domestic product at constant factor cost based on statistics of output are given in

^{5.} This represents taxes on expenditure less subsidies valued at constant rates.

Estimates of the gross domestic product obtained from statistics of expenditure are given in Table 1.1.
 Some indicators within the index of industrial production are based on sales data which may overstate or understate the level of output. The index numbers in this table allow for this by adjusting for changes in the level of stocks in these sectors. Differences between the data in this table and those in Table 7.1 arise from this adjustment and also because Table 7.1 may be based on later information.
 MLH 104: extraction of mineral oil and natural gas.

Including purchases *less* sales of land and existing buildings.
 Including transfer costs of land and buildings.
 In this series capital formation in imported ships is included at the time of delivery instead of when the expenditure takes place. See also footnote 1. to Table 1.9.
 Covers agriculture, forestry and fishing, construction and other service industries.

This series includes progress payments as they are made and so, for imported ships, it differs in timing from the corresponding series for expenditure-based estimates of gross domestic product. See footnote 3. to Table 1.7.
 Construction, road passenger transport, road haulage, professional, scientific and miscellaneous services.
 Except for shipping.

From October 1979 the figures are affected by the introduction in Great Britain of fortnightly payment of unemployment benefit. In arriving at the seasonally adjusted working population figures, a deduction of 20,000 has been made to allow for the effects of the new arrangements. (See page 1151 of the November 1979 issue of Employment Gazette.)

HM Forces figures, provided by the Ministry of Defence, represent the total number of UK service personnel, male and female, in HM Regular Forces, wherever serving and including those on release leave. The numbers are not subject to seasonal adjustment.

Estimates are assumed unchanged until later data become available.

See also Note to Table 3.1

Note: Because the figures have been rounded independently totals may differ from the sum of the Components, also the totals include some employees (some 3300 in 1975, 8700 in 1976 and Services (Northern Ireland 1400 in 1977) whose industrial classification could not be ascertained.

1. Provisional. 2. Excluding private domestic service. 3. The industries included in the index of production are Orders II—XXI of the Standard Industrial Classification 1968.

4. The estimates for agriculture are taken from the censuses of agriculture and exclude a small number of employees of agricultural machinery contractors.

5. Excluding members of HM Forces.

The figures for employees in employment in the United Kingdom include recent small revisions to the Northern Ireland figures.
 Figures after June 1978 are provisional.
 The included in the index of production are Orders II—XXI of the Standard Industrial Classification 1968.

3.3 Employees in employment^{1 2}: production industries³

continued Industries analysed according to the Standard Industrial Classification 1968

Non-industrials	571-1	567-3	565-8	547-5	539-9	534-5	532-8	528-0	523-2
Industrials	174-4	168-4	166-5	157-4	149-7	145-4	142-6	138-4	136-1

The figures include non-industrial and industrial staff but exclude casual or seasonal staff (normally recruited for a short period only and not more than 12 months) and employees of the Northern Ireland Government.

2. Part-time employees are counted as half units.

 The responsibility for the Paymaster General's Office transferred from the Chancellor of the Exchequer's Departments to 'other civil departments' on 1 July 1979 (868 staff) and are now included with other civil departments. The Treasury Solicitor was reclassified to 'other civil departments' on 1 April 1981 (448 staff).

4. Work on efficiency and personnel management was transferred to the newly formed Management and Personnel Office (MPO) with 1 378 staff from the Civil Service Department on its closure. Certain other divisions from the CSD were transferred to the Treasury and responsibility for CISCO, HMSO, COI and the Government Actuary's Department were transferred to the Chancellor of the Exchequer (9873 staff in all) on 2 December 1981.

 Includes Department of Employment; Health and Safety Executive; Advisory Conciliation and Arbitration Service; Manpower Services Commission and (from 1976) Employment Service Agency and Training Services Agency.
 From 1 October 1980, certain staff in PSA (1276 involved) have been excluded from the manpower count.

- 6. From 1 October 1980, certain staff in PSA (1276 involved) have been excluded from the manpower cour 7. With effect from 1 April 1981, some 755 non-industrials environment transport common services staff employed on work for the Department of Transport and previously counted in the Department of the Environment were instead included in the former's figures.
- Departments of the Secretary of State for Scotland and the Lord Advocate

9. Welsh Office.

 There were 396 300 Males and 270 100 Females in the Civil Service on 1 April 1982, the latest date for which information is available. Source: HM Treasury

Seasonal factors affect recruiting patterns during the year, and in comparing one year's achievement with another regard must be had to changing requirements.
 Some personnel have a liability for Reserve service. The figures include deaths.
 The differences between strengths at successive dates may not match the intake and outflow figures for corresponding periods because of delays in recording transfers between the Services and similar occurrences.

Figures are based on surveys undertaken on behalf of central and local government by the Local Authorities' Conditions of Service Advisory Board and the National Joint Council for Local Authority Services (Scottish Councils).
 Based on following factors to convert part-time employees to approximate full-time equivalents: for teachers and lecturers in further education, 0-11; teachers in primary and secondary education and all other non-manual employees, 0-63; manual employees, 0-41.
 Provisional figures.
 Including central services departments (e.g. engineers and treasurers) and all services not shown separately.
 Includes civilian employees of police forces, traffic wardens and police cadets.

For footnote 1, see page 24.

6. Based on the following factors to convert part-time employees to approximate full-time equivalents: for lecturers and teachers, 0-40; non-manual staff (excluding police, teachers and

firemen), 0-59; manual employees, 0-45.

7. Includes only those part-time staff employed in vocational further education (i.e. courses of an academic nature or those leading to a qualification).

an academic nature of those regums to a qualification).

8. Includes school-crossing patrols.

9. Includes civilian employees of police forces, traffic wardens and police cadets. Prior to 10 December 1977 police cadets were included in police (all ranks).

10. Includes approximately 2000 (in full-time equivalents) omitted from quarters prior to June 1981.

Percentage rates have been calculated by expressing the total numbers unemployed as percentages of the numbers of employees (employed and unemployed) at the appropriate mid-year.
 The seasonally adjusted series has been calculated as described in the Employment Gazette, March 1980. From October 1979 the figures are affected by the introduction of fortnightly payment of benefit. The seasonally adjusted figures have been adjusted to take account of this.
 The recorded unemployment figures for July to October 1981 are overstated by about 20 000 (net) as a result of industrial action affecting the flow of information between benefit offices and employment offices. The seasonally adjusted total for the United Kingdom has been reduced to allow for this. No adjustment has been made to other unemployment figures.

From October 1979 the figures are affected by the introduction of fortnightly payment of benefit.
 Percentage rates have been calculated by expressing the total numbers unemployed as percentages of the numbers of employees (employed and unemployed) at the appropriate mid-year.
 See footnote 3 on page 27.

5

^{1.} Classified by industry in which last employed. Excludes adult students registered for vacation employment.
2. From November 1979, the figures are affected by the introduction of fortnightly payment of benefit. The total unemployed seasonally adjusted figures have been amended to take account of this.
3. Percentage rates have been calculated by expressing the numbers of unemployed as percentages of the numbers of employees (employed and unemployed) at the appropriate mid-year.
4. The seasonally adjusted series have been revised as described in the Employment Gazette, March 1981.
5. Figures for November 1981 and February 1982 were not compiled.

^{1.} The figures represent only the number of vacancies notified to unemployment offices and careers offices by employers and remaining unfilled on the day of the count. It is estimated from a survey carried out in April—June 1977 that vacancies notified to employment offices are about one-third of all vacancies in the country as a whole.
2. Vacancies notified to employment offices could include some that are suitable for young persons. Similarly vacancies notified to careers officers could include some for adults. Because of possible duplication the two series should not be added together.

^{1.} Excludes stoppages involving fewer than 10 workers or lasting less than one day except any in which the total number of working days lost exceeded 100. There may be some under-recording of small or short stoppages; this would have much more effect on the total stoppages than on working days lost. The figures for 1982 are provisional.

2. The analysis by industries is based on the Standard Industrial Classification 1968.

3. Where stoppages extend over more than one month, the workers involved are counted in the month in which they first participated.

4. The figures of working days lost relate to the total working days lost within each of the periods shown as a result of stoppages in progress in that period, whether the stoppages began in that period or earlier.

5. Provisional.

1. Includes overseas cases.

2. Figures for individual months are averages of the four or five weeks ending on the last Tuesday of each month.

Including non-contributory invalidity pension introduced from 20 November 1975 and from 1 June 1981, a proportion of Housewives' non-contributory invalidity pension new claims, which was introduced on 17 November 1977.

4. Including prescribed industrial diseases.

Excluding claims made under the emergency benefit procedure. Figures for individual months are averages
of the four or five weeks starting on the first Monday of each month.

6. Yearly figures are averages of quarterly figures. Quarterly figures relate to the first Monday in February, May, August and November, up to and including 1977. From 1978 quarterly figures relate to Thursday following the first Monday in the month.

Excluding pensioners in receipt of non-contributory retirement pension awarded under National Insurance
Acts 1970 and 1971, and cases where graduated pension only was awarded.
 Including a diminishing number of widows with pensions of £1-50 a week derived from the old Contributory

Pensions Acts.

 Family allowance up to 31 March 1977: Child benefit from 1 April 1977.
 Figures for years earlier than 1977 include the elder or eldest child for whom an allowance was not payable but excludes single child families.

11. Estimate.

12. Data not available due to industrial action.

13. Provisional.

^{1.} Pension age means 65 years for men and 60 years for women.
2. Includes a small number of persons over pension age.
3. Prior to November 1977, the figures were obtained by counting 'live' documents in supplementary benefit offices. From this date the figures are estimates derived from a sample of cases receiving a payment for the week of the enquiry and exclude some cases previously included in the count.
4. Provisional.

Offences of abstraction of electricity are included with Other up to the end of 1977 and with Theft and handling stolen goods from the beginning of 1978.
 Figures since 1980 are not precisely comparable with those for previous periods because of changes in the counting rules from 1 January 1980. For further references see Home Office Statistical Bulletin 9/80.

The census covers all known holdings in the United Kingdom with 40 standard man-days or more. (A standard man-day represents 8 hours productive work by an adult male worker under average conditions.)
All holdings with less than 40 smd in Scotland are excluded but in England and Wales and Northern Ireland

Sources: Agricultural Departments

All holdings with less than 40 smd in Scotland are excluded but in England and Wales and Northern Ireland holdings with less than 40 smd are excluded only if they have less than 10 acres (4 hectares) of crops and grass and no regular whole time worker.

2. UK gross production in calendar years.

3. Including estimates for minor holdings in England and Wales (known as statistically insignificant holdings).

4. Estimates.

5. England and Wales only.

6. Before June 1979 Maize for threshing was included with Rye.

7. Included with Turnips an swedes for stockfeeding in Scotland and Northern Ireland.

8. Before June 1979 collected as Maize fed green or for silage. Maize for threshing was included with Rye.

9. From 1980 onwards estimated quantity harvested is for England and Wales only.

10. Weight in pods.

11. Shelled with grasses under five years old and five years old and over.

14. Includes hay from lucerne in England and Wales, and from permanent grass in Scotland.

15. Includes the total area of deer forest land in Scotland.

16. In Scotland collected as Woodland ancillary to farming. 7. Included with Turnips and

For footnotes 1. to 3. see previous page.

4. Statistics of home-production and consumption of beer from January 1976 take account of brewing at high gravity with the addition of some brewing liquor after fermentation.

5. From 1 July 1977 information on the country of origin of wine of fresh grapes is available from HM Customs and Excise by subscription only.

6. 15 per cent alcohol by volume represents approximately the previous dividing line between heavy and light with the previous dividing light light with the previous dividing light l

light wines.

7. The duty on cider and perry was introduced on 6 September 1976.

1. None of the values include contributions made by sweets, soft drinks, alcohol or snacks both bought and eaten

outside the home.

2. Department of Health and Social Security, Recommended daily amounts of food energy and nutrients for groups of people in the United Kingdom, HMSO 1979. For all these comparisons, ten per cent has been deducted from each corresponding absolute intake to allow for wastage, and an allowance has also been made for meals eaten outside the home.

7 Production, output and costs

MLH 104: extraction of mineral oil and natural gas.
 For an index of construction output for Great Britain, see Table 12.1.
 Industries are grouped according to the Standard Industrial Classification 1968.
 Unadjusted data may be obtained from the Central Statistical Office at the address shown inside the front cover of this publication.

Some indicators within the index of industrial production are based on sales data, which may overstate or understate the level of output. The index numbers of output in this table allow for this by adjusting for changes in the levels of stocks in these sectors.

 MLH 104: extraction of mineral oil and natural gas.

 Gross domestic product for whole economy.

 See table 7.3 for a comparable series of output per hour in manufacturing.

Sources: Central Statistical Office Department of Employment

7.2 Output per head

^{1.} Consumption by fuel producers plus colliery disposals to final users plus (for annual figures only) net foreign trade and stock change in other solid fuels. See also footnotes 4. and 5. to Table 8.5.

2. Inland deliveries for energy use plus refinery fuel and losses, with an adjustment for the beginning of 1979 for the difference between deliveries and actual consumption at power stations.

3. Including non-energy use and excluding gas flared or re-injected.

4. Also temperature corrected.

5. Provisional.

Including coke.
 Including quantities used in the production of steam for sale.
 Including quantities used in the production of steam for sale.
 Including oil used in gas turbine and diesel plant and for lighting up coal-fired boilers.
 Including generation by gas turbine, diesel and hydro-electric plant.
 Used on works and for pumping at pumped storage stations.
 Including net imports and purchases from outside sources mainly UKAEA and British Nuclear Fuels Ltd. The England and Wales figures include net exchanges with Scotland.

Sales of electricity by the public supply system

^{1.} Including output of products not shown separately, namely, aviation spirit, wide-cut gasoline, industrial and white spirits, paraffin wax and miscellaneous products.

2. Including vaporising oil.

3. Provisional.

^{1.} The term indigenous is used in this table for convenience to include oil from the UK Continental Shelf as well as the small amounts produced on the mainland.

2. Crude oil plus condensates and petroleum gases derived at onshore treatment plants.

3. Includes process (partly refined) oils.

4. Includes condensate for distillation.

5. Mainly recycled products.

6. Foreign trade as recorded by the petroleum industry and may differ from figures published in Overseas Trade Statistics.

7. Re-exports of imported crude which may include some indigenous oil in blend. 8. International marine bunkers. 9. Provisional.

Including other petroleum gases, aviation spirit, wide-cut gasoline, industrial and white spirits, paraffin wax miscellaneous products, but excluding refinery fuel.
 Including very small amounts for petro-chemicals.
 Now mainly petro-chemical feedstock.
 Including vaporising oil.
 Frovisional.

^{1.} Industrial ethyl alcohol is distilled from molasses or derived from other processes: the current usings of molasses

Sources: HM Customs and Excise Department of Industry

Industrial ethyl alcohol is distilled from molasses or derived from other processes: the current usings of molasses spirit in beverage spirit production are believed to be comparable with the usings in the preceding financial year—see explanatory notes in the Supplement of Definitions and Explanatory Notes.
 Figures relate to sales by manufacturers in the United Kingdom who are classified to MLH 275 (Soap and detergents) and who from the first quarter 1981 employ 50 or more, replacing the previous employment level of 25. Figures include sales of synthetic detergents by establishments classified to MLH 271 (General chemicals), MLH 272 (Pharmaceutical chemicals and preparations) and MLH 279.1 (Polishes) but exclude, from the first quarter 1980 sales of household cleaning liquid detergent and from the first quarter 1981 sales of paste synthetic detergents.
 A short standard is 7200 matches.
 Provisional.

1. Including manganese ore.

Sources: Department of Industry Iron and Steel Statistics

^{1.} Including manganese ore.
2. Stocks at producers' works of ingots, semi-finished and finished steel in terms of ingot equivalent. Figures include stock of semi-finished steel for the manufacture of heavy products.
3. Stock levels have been revised from Q1. 1982, changes have been carried back to 1979.
4. Provisional.

Lead reclaimed from secondary scrap material, and lead refined from domestic ores, including antimonial lead.
 2. Including toll transactions. Figures of Home Consumption of lead comprise Imported primary, secondary, English refined and antimonial lead.
 3. Excluding secondary.
 4. Stocks held by consumers and LME warehouses.
 5. Including scrap.

Note: More detailed information on these industries can be found in the PQ series of Business Monitors. There is one of these for each of the industries (below Order level) listed above.

1. These figures represent the total sales of principal products of each industry, excluding waste products and work done. Estimates of the sales of principal products of establishments falling below the employment threshold of the Quarterly Sales Inquiries are included.

2. Standard Industrial Classification (1968).

Standard industrial classifications (MLH 341.3) and ordnance and small arms (MLH 342).
 Excluding process engineering contractors (MLH 341.3) and ordnance and small arms (MLH 342).
 The total may differ from the sum of its constituent parts, due to rounding.
 Excluding jewellery and precious metals (MLH 396) and metal finishing (MLH 399.11).

10.6 Engineering and allied products Estimated total sales of UK manufactured goods¹

June	0,											

End of period.
 The change in the level of this series is largely due to reclassification of establishments between the instrument and electrical engineering sectors.

10.9 Mechanical, instrument and electrical engineering industries
Seasonally adjusted volume index numbers of new orders¹

Including chassis delivered as such by manufacturers. Taxi-cabs are included.
 Sa week period.
 From January 1978, Land Rover estate vehicles are included in commercial vehicle production: 1977 figures have been amended accordingly. The number of these vehicles in 1977 was 11 848.
 From January 1981, certain models previously recorded under assembly were re-categorised under production. These are almost exclusively built for the home market. Further details are in Business Monitor PM381.

Includes naval vessels registered as merchant ships.
 Gross tonnage (100 cubic feet per g. t.) is the total volume of all the enclosed spaces of a vessel.
 The total tonnage specified on ordering vessels differs slightly from the total actual measured tonnage on

completion.

4. Vessels are shown for export if they are for other than UK registration.

5. Modifications include alterations of 500 gross tons or more to the tonnage and the country of registration of

vessels already on order.

6. Modifications and cancellations exceed new orders for the period.

10.14 Merchant shipbuilding1: vessels of 100 gross tons and over2

Monthly statistics on waste paper are published in Business Monitor PM 481, Paper and paper making materials.
 1 tonne=0-63 tonne paper equivalent (air dry weight).
 Including home-grown pulpwood, wood waste, chippings and rejected pit props.
 Does not include imported pulpwood for disclosure reasons.
 53-week year; quarterly averages are 13-week quarters.

^{1.} A full explanation of discontinuities in the series is available in the Supplement of Definitions and Explanatory Notes for this publication.

2. United Kingdom.

3. Broken Period.

Sources: Department of the Environment Department of Industry

^{3.} Broken Period.
4. From January 1977 figures for concrete building blocks amended to include additional sites. The effect has been to increase production by an average of 5 per cent. From 1979 monthly figures are received from those establishments employing 25 or more persons and quarterly figures from smaller ones. The latter are then apportioned between the months.
5. Monthly averages for the complete years 1976 to 1979 are derived from the Annual Inquiry into Mineral Extraction, a census. All quarterly figures are estimates based on a sample. Census figures for 1979 and quarterly data as from 1st quarter 1980 refer to sales not production.
6. Provisional.

Permanent house building: summary of progress

Number of houses and flats

1. Excluding building which is wholly financed from private sources.

Excluding building which is wholly financed from private sources.
 From January 1960 for Scotland and from April 1960 for England and Wales the cost of school meals projects has not been separately recorded. The value of such projects, shown separately for the years 1946 to 1959 in previous tables of educational building, has been included as appropriate under the headings Primary and Secondary and Special schools.
 Figures for England and Wales include the value of projects for which specific approval is not required.
 Totals for England and Wales include the value of certain projects for which no analysis between type of project is available. As from October 1961, the individual value of such projects is less than £2000.
 From April 1977 the cost of teacher training projects for England and Wales has been included under Further education.

- education.
- Figures for England and Wales relate to project values and those for Scotland to contract values. Figures
 for Scotland include the cost of certain main projects for which specific approval is not required.
 It has been necessary to compound the 2nd and 3rd quarters to compensate for the delay in receiving
- relevant information for the 1st quarter of 1979.

 8. The Under constructions and Completions figures exclude the value of approved school projects which

in 1972 amounted to £1 246 000 and £406 000 respectively.

9. This figure has been adjusted to show the total of projects listed in the local authority returns for 1st quarter 1979 as still under construction.

^{1.} Excludes vehicles used by the armed forces.

Driver and vehicle licensing centre took over new registrations of vehicles from the local taxation offices on 10 October 1974.

^{3.} Includes agricultural tractors, combine harvesters and other agricultural machines, digging machines, mobile

cranes, works trucks, mowing machines etc.

4. Includes tricycles, pedestrian controlled vehicles, showmans tractors and general haulage tractors.

5. The registration counts for March and September are underestimates, April, October and November are over estimates. This is due to timing difficulties in doing retrospective counts at DVLC Swansea after industrial

action. of the 10 per cent car tax on motorcycles effective from 1st April 1981. Early applications for licences received in March but from 1st April 1981 were exempted from car tax.

Between 1974 and 1978 the census methodology has been changing and figures are not strictly comparable.
 From 1978 figures are taken at 31 December. For details of change, see Supplement of Definitions and

Explanatory Notes 1982.

2. Includes agricultural tractors, combine harvesters, mowing machines, digging machines, mobile cranes, works trucks, three wheelers, pedestrian-controlled vehicles and showmen's haulage.

Includes personal and direct export vehicles.
 From 1979 includes exempt tax classes 61 and 62 not previously included.

1. Not over 30 cwt. unladen weight.

2. Includes vehicles with drawbar trailers.

3. The figures for road goods transport are estimated from a continuing sample enquiry.

The quarterly figures relate to 13-week periods and not three calendar months.
 Revised to exclude estimates of work done by vehicles under 3.5 tonnes gross vehicle weight.

6. Estimates.

All indices (except 1982 1st quarter) have been revised following revisions in estimates of road lengths.
 Provisional.

Including operation of tramcars by two local authorities, accounting for 8 million passenger journeys and £1-5 million receipts in 1978.
 Other operators include the National Bus Company, Scottish Bus Group and private operators.
 Operation of tramcars in 1979 accounted for 9 million passenger journeys and £1-7 million receipts.
 Provisional.

Including riders and passengers of mopeds, motor scooters and combinations.
 Some casualties (less than 1%) cannot be analysed by month, age or class of road user.
 Provisional.

The four-weekly averages for each year are computed from calendar year totals.
 Freight train traffic only.
 Freight train traffic only.
 Freight train traffic and the Board's two major docks.
 Includes traffic carried for National Carriers Ltd. and Freightliners Ltd. From January 1979, the method of estimating tonnage carried for these companies was changed with a resultant small reduction in the figures.

shown.

5. From January 1979, net tonne kilometres include estimates of National Carriers Ltd. and Freightliners Ltd. traffic. Also from January 1979, net tonne kilometres for all other traffics have been estimated on a basis different from that previously used.

6. 32 day period.

7. 33 day period.

8. 4 weeks ended January 30

9. 4 weeks ended February 27

10. 4 weeks ended March 27

11. 4 weeks ended April 24

12. 4 weeks ended May 22

13. 4 weeks ended June 19

14. 4 weeks ended July 17

15. 4 weeks ended August 14.

Scheduled services only. All kilometre statistics are based on standard (Great Circle) distance.
 Slight discrepancies between certain totals and the sum of their constituent items are attributable to the rounding of figures.
 Including weight of vehicles uplifted on vehicle ferry services, excess baggage and diplomatic bags.

Note: EC=European Community.

Sources: Department of Industry Civil Aviation Authority

Note: EC=European Community.

1. Excluding movement by land across the frontier between the Irish Republic and Northern Ireland, passengers travelling between the Channel Islands and Great Britain, passengers carried in aircraft chartered by British government departments and as far as possible, passengers travelling by sea on day trips and HM and other Armed Forces travelling in the course of their futies.

2. Including passengers on pleasure cruises beginning and/or ending at UK seaports.

3. To avoid disclosure the figure for the first quarter of each year is included with that for the second quarter.

4. The figures do not include oil rigs.

13.12 UK passenger movement by sea and air Analysis by countries of landing and of embarkation

Thousands

Statistics of visible trace on a balance of payments basis are obtained by making certain adjustments in respect of
valuation and coverage to the statistics recorded in the Overseas Trade Statistics. These adjustments are summarised
in Table 15.1 above; they are described in detail in United Kingdom Balance of Payments 1982 Edition.
 Export unit value as a percentage of the import unit value index.

15.3 Value of exports (f.o.b.) : analysis by commodity classes

Note: The statistics are on an overseas trade statistics basis (see footnote 1. to Table 15.2).

1. These are defined as ships, North Sea installations (together comprising SITC (Rev 2) (793), aircraft (792) and precious stones (867).

2. Based on the Classification by Broad Economic Categories (BEC) published by the United Nations.

Total	United Kingdom exports	40 637-0	47 357-1	11 334-9	12 155-3	13 368-0	13 805-2	4 369-6	4 696-1	4 649-6

Note: The statistics are on an overseas trade statistics basis (See footnote 1 to Table 15.2) to which a number of changes have been made to the coverage, with effect from 1 January 1981. The changes, which are described below, were previously taken into account by means of balance of

payments adjustments. a) Trade in precious stones now excludes consignments which cross national boundaries on a temporary basis only, ie for valuation or for exhibition, previously, these were included in the OTS figures each time they arrived or left the United Kingdom.

b) Trade in secondhand aircraft is excluded where the aircraft are being imported or exported solely for the purpose of repair or modification, but the value of the work done in undertaking the repair or modification is included.

c) Certain atomic energy materials previously excluded are now included.

d) Gold bullion purchased as a commodity by the general public is included for the first time.

The numbers on the left hand side of the table refer to the Section and Division code numbers of the Standard International Trade Classification, Revision 2.
 The column showing the comparison between the latest month's figures and the same month last year,

has been temporarily deleted. It will be reinstated as soon as the necessary data becomes available.

Note: The statistics are on an overseas trade statistics basis (see footnote 1 to Table 15.2).

1. These are defined as ships, North Sea installations (together comprising SITC (Rev.2) 793), aircraft (792) and precious stones (667).

2. Based on the Classification by Broad Economic Categories, (BEC) published by the United Nations.

^{1.} The ratios were first introduced in the August 1977 edition of Economic Trends in an article 'The Home and Export Performance of United Kingdom Industries' which described the conceptual and methodological problems involved in measuring such variables as 'import penetration'. The industries are grouped according to the Standard Industrial Classification 1988. The latest ratios for the full detail within manufacturing (over one hundred MLHs) are shown in Business Monitor MQ12 Import Penetration and Export Sales Ratios for Manufacturing Industry Annual ratios for 1970 to 1979 in full detail appeared in the June 1980 edition of Economic Trends in an article 'Manufacturing Industry in the seventies: an assessment of import penetration and export performance'. The trade figures used as the numerators for the ratios are the Overseas Trade Statistics reclassified to the Standard Industrial Classification which are published in Business Monitor MQ10 Overseas trade analysed in terms of industries.

Certain sectors are excluded since they are inappropriate for this analysis. They are the following MLHs: 239
 Other drink industries, 240 Tobacco, 342 Ordnance and small arms, 396 Jewellery and precious metals, 423
 Textile finishing, 433 Fur, and 474 Shop and office fittings.

1. Assets: increase - / decrease +. Liabilities: increase + / decrease -. Excluding official financing.

2. Excluding trade credit between related firms (part of United Kingdom and overseas private investment).

Excluding changes in levels resulting from changes in sterling valuation: see notes on pages 40 and 51 of UK Balance of Payments 1982 Edition.

4. Prior to 1982 includes transactions by 'other financial institutions'. For 1982 onwards these data relate only to transactions reported by UK monetary sector institutions. Transactions by 'other financial institutions' are included within 'other external borrowing or lending'.

Sterling reserves of overseas countries and international organisations, other than the IMF, as reported by UK banks, etc. in the United Kingdom.

6. Excluding credit for UK exports.

7. From 1982 onwards included transactions by 'other financial institutions' (see footnote 4). The estimate included for the latest quarter excludes a substantial part of the private sector borrowing from and lending to banks etc., overseas.

Until end-March 1979 convertible currencies are valued in dollars at middle or central rates; Special Drawing Rights are valued at SDR1=\$1·20635; gold is valued at \$42·2222 per fine ounce.
 2. From end-March 1979 the

Sources: Central Statistical Office **HM Treasury**

Rights are valued at SDR1=\$1:20635; gold is valued at \$42:2222 per fine ounce.

2. From end-March 1979 the rates at which the reserves are valued in dollars are revised annually. Convertible currencies and SDRs are valued at the average of the middle market closing rates in the three months to end-March, or (from end-March 1980) at their actual dollar value on the last working day of March, whichever is the lower. Gold is valued at the average of the London fixing prices for the three months up to end-March less a 25 per cent discount or (from end-March 1980) at 75 per cent of its final fixing price, on the last working day of March whichever is lower.

3. Data denominated or expressed in dollars are converted to sterling at end-period middle-market rates.

4. Drawings from the IMF, excluding interest and charges and net of repayments to and drawings from the IMF by other countries in sterling. 5. From July 1979 reserve holdings include European Currency Units acquired from swaps with the European Monetary Co-operation Fund. As shown above, these are included within convertible currencies and are valued at the average of the \$/ECU or \$/European Unit of Account Exchange rates in the 3 months to end-March, or at their actual dollar value on the last working day of March, whichever is lower.

The figures for end-December 1981 show, in the first line, levels on the basis of the old banking sector and
in the second line, on the basis of the new monetary sector. Banking sector levels at end-December 1981 are partly estimated.
 Changes up to and including the 4th quarter of 1981 in the quarterly series and 18 November 1981 in the monthly series
have been calculated on the basis of the old banking sector. After those dates changes in each series have been
calculated on the basis of the new monetary sector. Figures for the 4th quarter 1981 are partly estimated.

Calculated gross redemption yield on last working day.
 Financial Times—Actuaries share indices 10 April 1962=100. All classes (750 shares) index.
 Monthly averages.

The figures represent the average earnings, including bonus, overtime, etc., and before deduction of income tax or insurance contributions, in one week in the month indicated. Administrative and clerical workers and other salaried persons have been excluded. Certain qualifications including explanations of the change of definitions are given in a full account of the survey relating to October 1980, published in the Employment Gazette for March 1981, and an article in the Employment Gazette for March 1982 comments on the effects of the change of industrial coverage in the 1981 survey.

The survey excludes certain miscellaneous services and public administration.

Insufficient information is available to enable a reliable index for Agriculture to be calculated for the current month but the best possible estimate has been used in the compilation of the index for the

whole economy.

2. England and Wales only and excluding fishing.

3. Except sea transport.
4. Some small industries are not covered.
5. Excludes private domestic and personal services.

6. The figures reflect abnormally low earnings due to the effects of the national dispute in the engineering industries.

The Because of the dispute in the steel industry, insufficient information is available to enable reliable indices for 'metal manufacture' to be calculated, but the best possible estimates have been used in the compilation of the indices for 'all manufacturing industries' and 'whole economy'.

8. Provisional.

Note: The seasonal adjustment factors currently used are based on data up to December 1980.

1. The figures reflect abnormally low earnings owing to the effects of national disputes.

2. Provisional.

Note: Calculation of these indices will be discontinued after December 1983.

Note: Calculation of these indices will be discontinued after December 1983.
1. The figures are based upon changes in basic rates of wages or minimum entitlements and reductions in normal weekly hours, which are normally determined by national collective agreements or statutory wages orders. The information relates to the end of the month and, where necessary, the figures may be revised to take account of any changes having retrospective effect or reported belatedly. A brief note on the method of compilation of the figures is given in the current issue of the Employment Gazette.
2. For details of hourly wage rates see the Employment Gazette.
3. The industry groups are analysed according to the Standard Industrial Classification 1968.
4. Metal manufacture; mechanical, instrument and electrical engineering; shipbuilding and marine engineering; vehicles and metal goods not elsewhere specified.

18.7 Index numbers of basic wage rates of manual workers¹

31 July 1972=100

	Basic weekly wage rates		Basic hourly wage rates	
	All workers		All workers	
	All industries and services	Manufacturing industries	All industries and services	Manufacturing industries

^{1.} The Cost of Living Advisory Committee (now renamed the Retail Prices Index Advisory Committee) recommended in 1962 that until a satisfactory index series based on actual prices became available half the expenditure on meals out should continue to be allocated to the food group and the other half spread proportionately over all groups, including the food group. The index for meals out for 16 January 1968 implicit in this recommendation was 121-4. Since January 1968 an index series based on actual prices has been available and indices in this series have been linked with the implicit index for meals out for 16 January 1968, to obtain indices for meals out with 16 January 1962 taken as 100.

2 Provisional

Index numbers constructed on a net sector basis, i.e. transactions within sector are excluded.
 Index numbers are compiled exclusive of VAT. Revenue duties on cigarettes, tobacco, alcoholic liquor, matches and mechanical lighters are included. Duty on hydrocarbon oils is included in series for materials and fuel purchased by broad sectors of industry but excluded from output price series.
 Provisional.
 For footnotes 4 to 8 see page 156.

Index numbers constructed on a net sector basis, i.e. transactions within sector are excluded.
 Index numbers are compiled exclusive of VAT. Revenue duties on cigarettes, tobacco, alcoholic liquor, matches and mechanical lighters are included. Duty on hydrocarbon oils is included in series for materials and fuel purchased by broad sectors of industry but excluded from output price series.
 Provisional.

For footnotes 4 to 8 see page 156.

For footnotes 1 to 3 see page 153.

4. A base weighted (1975=100) combination of the separate price indices for contractors' output in the five new work sectors.

5. The index covers only dwellings on which building societies have approved mortages during the period. The cost of land is included.

6. Figures are based on a monthly return covering 90 per cent of building society mortgages.

7. Figures are based on a new return introduced in January 1981.

8. Revised.

18.11 Index of purchase prices of the means of agricultural production

Note: The purpose and methodology of the Tax and price index were described in an article in the August 1979 issue of Economic Trends and in the September Economic Progress Report published by the Treasury. The purpose is to produce a single index which measures changes in both direct taxes (including national insurance contributions) and in retail prices for a representative cross-section of taxpayers. Thus, while the Retail prices index may be used to measure changes in the purchasing power of after-tax income (and of the income of non-taxpayers) the Tax and price index takes account of the fact that taxpayers will have more or less to spend according to changes in direct taxation. The index measures the change in gross taxable income which would maintain after tax income in real terms.

 These figures reflect the changes in the 1978 Finance Act, which affect the Tax and price index from April 1978, but not the 1979 Budget changes which are included from July 1979. Source: Central Statistical Office

Source: Meteorological Office

Provisional.
 To convert degrees centigrade into fahrenheit: Multiply by 9, divide by 5, and add 32.
 I millimetre=0-0394 inches.

Units of measurement

I. Common units of measurement and their equivalents

Length		0.000.070.4
4	1 millimetre (mm)	= 0.039 370 1 inches
1 centimetre (cm)	= 10 millimetres	= 0.393 701 inches
1 metre (m)	= 1,000 millimetres	= 1.093 61 yards
1 kilometre (km)	= 1,000 metres	= 0-621 371 miles
	1 inch (in)	= 25·4 millimetres or 2·54 centimetres
1 foot (ft.)	= 12 inches	= 0.3048 metres
1 yard (yd.)	= 3 feet	= 0.914.4 metres
1 mile	= 1,760 yards	= 1.609 34 kilometres
Area		
7100	1 square millimetre (mm²)	= 0-001 550 00 square inches
1 square metre (m²)	= million square millimetres	= 1.195 99 square yards
1 hectare (ha)	= 10,000 square metres	= 2.471 05 acres
1 square kilometre (km²)	= million square metres	= 247·105 acres
i square kilometre (kili-)	- minon square metres	- 247·103 acres
	1 square inch (sq. in.)	= 645-16 square millimetres or 6-451 6 square centimetres
1 square foot (sq. ft.)	= 144 square inches	= 0.092 903 0 square metres or 929.030 square centimetres
1 square yard (sq. yd.)	= 9 square feet	= 0.836 127 square metres
1 acre	= 4,840 square yards	= 4,046-86 square metres or 0-404 686 hectares
1 square mile (sq. mile)	= 640 acres	= 2.589 99 square kilometres or 258.99 hectares
Volume		
·	1 cubic centimetre (cm³)	= 0.061 023 7 cubic inches
1 cubic decimetre (dm³)	= 1,000 cubic centimetres	= 0.035 314 7 cubic feet
1 cubic metre (m³)	= million cubic centimetres	= 1.307 95 cubic vards
1 cubic metre (m²)	= million cubic centimetres	= 1.307.95 Cubic yards
	1 cubic foot (cu. ft.)	= 0.028 316 8 cubic metres or 28-316 8 cubic decimetres
1 cubic yard (cu. yd.)	= 27 cubic feet	= 0.764 555 cubic metres
Capacity		
1 litre (I)	= 1 cubic decimetre	= 0.2200 gallons
1 hectolitre (hl)	= 100 litres	= 22·00 gallons
i nectolitre (ni)	= 100 litres	= 22'00 gallons
	1 pint	= 0.568 litres
2 pints	= 1 quart	= 1·137 litres
8 pints	= 1 gallon	= 4.546 09 cubic decimetres or 4.546 litres
36 gallons (gal.)	= 1 bulk barrel	= 1-636 56 hectolitres
Weight		
	1 gram (g)	= 0.035 274 0 ounces
1 hectogram (hg)	= 100 grams	= 3.527 40 ounces or 0.220 462 pounds
1 kilogram (kg)	= 10 hectograms	= 2.204 62 pounds
1 tonne (t)	= 1,000 kilograms	= 1.102 31 short tons or 0.984 2 long tons
I tonne (t)	= 1,000 kilograms	= 1.102.31 short tons or 0.984.2 long tons
	1 ounce avoirdupois (oz.)	= 28-349 5 grams
1 pound avoirdupois (lb.)	= 16 ounces	= 0.453 592 37 kilograms
1 hundredweight (cwt.)	= 112 pounds	= 50-802 3 kilograms
1 short ton	= 2,000 pounds	= 907-184 74 kilograms or 0-907 184 74 tonnes
1 long ton	= 2,240 pounds	= 1,016·05 kilograms or 1·016 05 tonnes
	400	24 402 5
1 ounce troy	= 480 grains	= 31·103 5 grams

II. Other units and equivalents used in the Monthly Digest of Statistics

Energy:	British thermal unit (Btu)	The amount of heat required to raise 1 lb. of water through 1 degree fahrenheit at or near 39-1 degrees fahrenheit					
	Therm	100,000 British thermal units					
	Gigawatt hour (GWh)	106 kilowatt hours					
	Megawatt (MW)	10 ^s watt					
	Terawatt hour (TWh)	10° kilowatt hours					
Food and drink:	Butter	23.310 litres milk	= 1 tonne butter (average)				
	Cheese	10,070 litres milk	= 1 tonne cheese				
	Condensed milk	2.550 litres milk	= 1 tonne full cream condensed milk				
		2.953 litres skimmed milk	= 1 tonne skimmed condensed milk				
	Milk	1 million litres	= 1,030 tonnes				
	Milk powder	8,054 litres milk	= 1 tonne full cream milk powder				
		10.740 litres skimmed milk	= 1 tonne skimmed milk powder				
	Eggs	17,126 eggs	= 1 tonne (approximately)				
	Sugar	100 tons raw sugar	= 95 tonnes refined sugar				
	Beer	1 bulk barrel	= 36 gallons irrespective of gravity

CSOOKS

National Accounts

Blue Book

National Income and Expenditure, the Blue Book is the essential data source for everyone concerned with macro-economic policies and studies.

The principle annual publication for national accounts statistics, the Blue Book provides detailed estimates of national product, income and expenditure for the United Kingdom.

The Blue Book covers industry, input and output, personal sector, companies, public corporations, central and local government, capital formation and financial accounts. Tables contain up to 22 years' data. There are definitions and detailed notes.

The National Accounts - A short guide provides guidance and background to the Blue Book.

National Income and Expenditure ISBN 0 11 620010 3*

Price £13.50 net

Pink Book

How much does the 'City' contribute to the United Kingdom's overseas earnings? Can the North Sea oil and gas contribution to the balance of payments be identified? What are our total transactions with the rest of the European Community? What are the United Kingdom's overseas assets and liabilities? The answers are all in the Pink Book, United Kingdom Balance of Payments

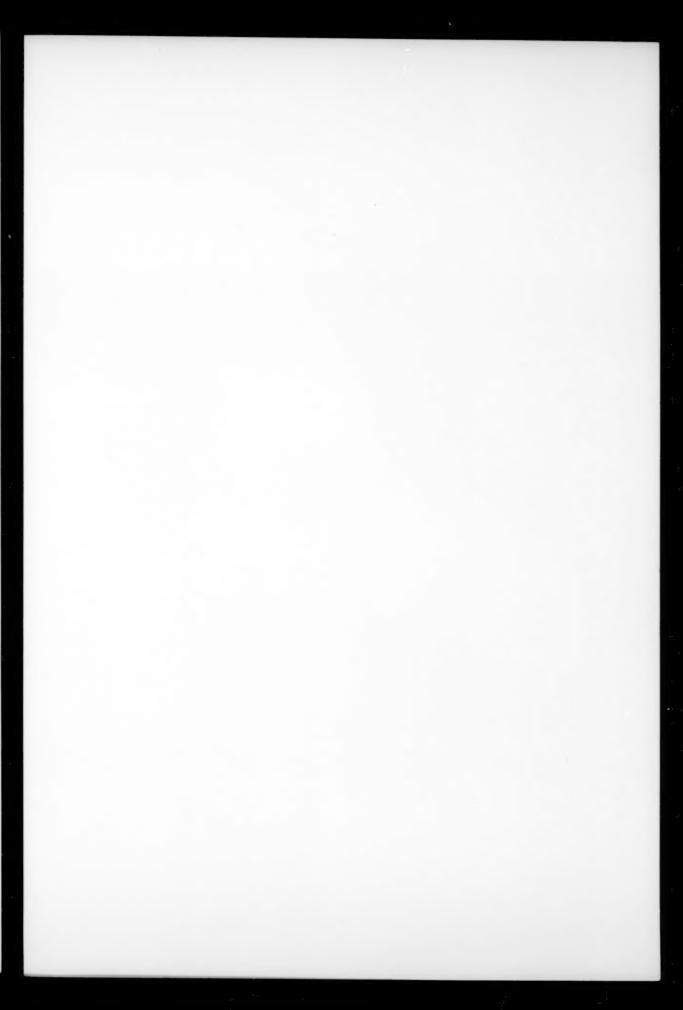

The Pink Book is the basic reference book for balance of payments statistics. It provides detailed information on visible trade, invisibles, investment and other capital transactions and official financing as well as sections of specific aspects of the balance of payments.

United Kingdom Balance of Payments ISBN 0 11 620007 3

Price £9.75 net

Central Statistical Office publications are published by Her Majesty's Stationery Office and are marketed by Open University Educational Enterprises Ltd. They are obtainable from both HMSO and OUEE

Monthly Digest of Statistics

The Monthly Digest of Statistics provides basic information on 20 subjects including population, employment and prices, social services, production and output, energy engineering, construction, transport, catering, national and overseas finance and the weather.

The Monthly Digest of Statistics contains mostly runs of monthly and quarterly estimates for at least two years and annual figures for several more.

Other CSO monthlies are Financial Statistics and Economic Trends

The Monthly Digest Annual Supplement gives definitions and explanatory notes for each section. An index of sources is included
